

# PAVLO MEDVEDSKYI

## Senior Quality Assurance Engineer

Ivano-Frankivsk, Ukraine | Telegram: t.me/Wisll | Email: Medvedskiypa@gmail.com | LinkedIn: linkedin.com/in/pavlo-medvedskyi-74231913b | Website: pavlo-qa90.github.io/CV

### SUMMARY

Senior Quality Assurance Engineer with 6+ years of experience in manual testing across web, mobile, API, and database layers. Strong background in test design, functional and regression testing, and ensuring full requirements coverage. Experienced in leading testing processes, collaborating with cross-functional teams, and mentoring. Over the past year, started building skills in API test automation using Java, Rest Assured, and TestNG, with growing hands-on experience in integrating automation into real projects. Looking to further strengthen automation expertise while leveraging strong manual QA foundation to ensure high-quality product delivery.

### SKILLS

**Technologies:** SQL, API, OpenShift, Data Gate, Kafka, Java (Rest Assured + TestNG), Selenide/Selenium (basic)

**Testing Techniques:** Functional, Regression, Smoke, Usability, Web, Mobile, API, DB Testing, Test Design (BVA, EP, Combinatorial), Requirements Analysis, Defect Tracking, Test Planning

**Testing Tools:** Postman, Swagger, Chrome DevTools, Fiddler, HTTP Toolkit, TestRail, Jira, Zephyr, Confluence, PostgreSQL, MSSQL, Derby DB, VirtualBox, Google Cloud Console, Sentry

**OS & Utilities:** CLI, Bash, PuTTY, Windows Server, UNIX (CentOS 7–9), iOS, Linux (Ubuntu)

### WORK EXPERIENCE
